SATURDAY July 13, 1807.

The weather will be a little mixed on Sunday. It will be dark before source and light after. If it don't rain, pressure seek-served by the content of the content

Stock market, compared with those of yesterday afternoon, show an advance in prices of from 1/4 to 1 per cent. Governments, on the other hand, were fractionally lower. As fat, and die for the wicked woman he loves."

This has been corrected by later oracles, which declare that the hero of this month shall be a devoted lover and an earnest-minded man. The women of July were always famous. Ancient and modern astrologers have agreed, and fact has most frequently proven the prophecy, that the female born in July will be passionately handsome, with aquibline nose and tine bust—bat will be of rather sully line nose and fine bust—bat will be of rather sull

C. N. S. writes: "Two gentlemen dispute about waterfalls (not ladies, but Nature's).
One says there is a precipice in California, over which water falls two thousand feet.
The other claims that Niagara is the the experience of half the householders. Ask any man in Minnesota what induced him to come here, and one half, at least, will tell you it was for the health of himself or some member of his family. He succeeded because he came in time, came to stay, bringing his cares with him, leaving none behind to ache and plue for.

over which water falls two thousand feet. The other claims that Niagara is the greatest. Your answer is earnestly looked for, method to ache and plue for.

Exposition Universelle.—The only Gold MEDAL awarded for PERFECTION IN SEWING MACHINES able paper.

The Yosemite Falls (in California) are WHEELER & WILSON MANUFACTURING CO. made up of three distinct leaps of the same body of water, the first being 1,300, the second 250, and the third about 400 feet in height. The volume of water is comparamarried, and its generally insufferable heats ought tively slight. Niagara is 164 feet in height,
